Weight and dimensions
- Dimensions brush head packaging: 21.6 h x 6.5 w x 4.1 d cm
- Weight brush head packaging: 0.057 kg

Highlights

Ideal for targeted cleaning
Angled neck and smaller brush head, provides an exceptional clean in hard-to reach areas. Also recommended for adults with smaller mouths.

Fits the shape of your teeth
The scalloped pattern along the length of the brush head is ergonomically designed to follow teeth topography, maximising the surface area cleaned, and adheres to the natural shape of your teeth.

Brush head easily screws on
Screw the brush head nut clockwise until it's firmly tightened. If the brush head rattles during use, tighten the nut further.

Reminder bristles

Reminder bristles let you know when to replace the brush head. After three months of normal use bristles exhibit fatigue, and brush heads are less effective. Replace your brush head every 3 months.

Fits Advance, Elite, Essence
Now Advance users can also enjoy the performance of the e-series brush head! Fits Elite, Essence, Advance and Xtreme handles.
